

Poly Socks L90898, L90897

Issue: Potential safety hazards are present around machines or in storage areas where leaks, drips, sprays or spills are most likely to occur.

Solution: A spill control plan should be developed with absorbent products readily available to control daily leaks and spills around your plant or to use in case of an emergency.

Description: OIL-DRI® Poly Socks should be a part of every spill control plan. These socks are designed to repel water while absorbing petroleum based fluids. They can be used to contain petroleum based fluid leaks and prevent spills from spreading on the floor.

Features & Benefits:

- **Hydrophobic** - Will only absorb petroleum based fluids.
- **Superior Retention** - Holds liquids in. Each 6 ft. sock can absorb up to one gallon of fluid.
- **Flexible** - Socks conform snugly to fit in tight spaces, around corners, and at machine bases.
- **Incinerable** - Reduces disposal costs

Product Specifications:

- **Composition:** Sock skin filled with meltblown polypropylene filling.
- **Color:** White
